

THE PROBLEM

No apps available for part-time/hourly jobs for students in the market.

THE SOLUTION

bLINK acts as a middle man and provides hourly pay for a particular job to be done. The work can range from tutoring to cashier at shops to handle prime time customers.

MONEY

This is how we safeguard YOUR money

As soon as you get selected, your hirer will pay the money but no we won't send it to your right away. bLINK holds the money until the job is done AND your hirer is satisfied with your job.

The hirer can either click the button to pay you right away or can apply for a refund in case there was deceit involved.

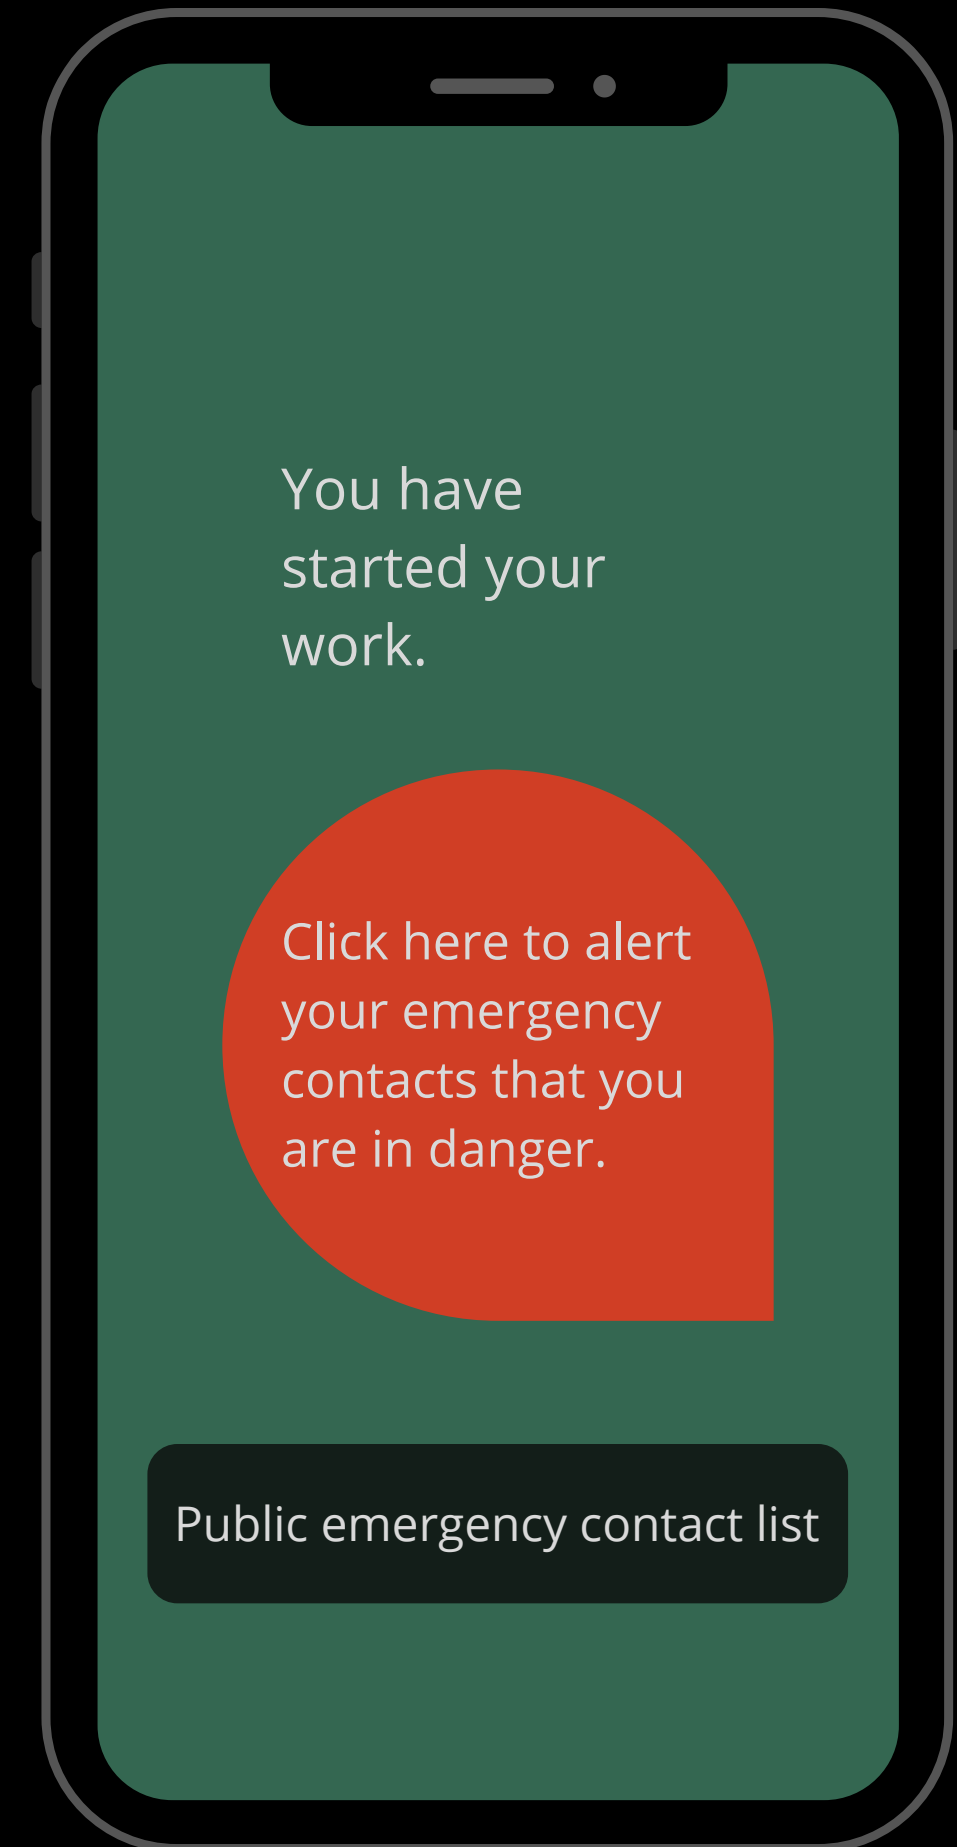

SOS

We have you protected!

Notice anything weird or do you feel uncomfortable?
Don't hesitate to use our emergency services. We will also be tracking your live location while you work in order to send necessary details to your emergency contacts.

Always remember you need not do anything that makes you feel unsafe or threatened.

REVIEW SYSTEM

Like your hirer? or Like the student's service? Rate them

We work on a rating system where both you as your hirer will rate each other's experiences.

Don't like how the hirer or the student behaved? Give them 0 stars and a bad review, they will automatically be blackmarked. These reviews will be checked and acted upon.

Wonderful service. My dog Mika loved spending time with the student.

What we want to achieve...

We acknowledge good conduct and attitude over skills and this is what our app stands for.

We want to link hardworking students to hirers to help them stay independent.

THANK YOU
